12th (PCM)	93.4%
S.D.R.R Public School	2020
10th	83.4%

SKILLS

Technical Skills: Java, OOPS Concepts, Next.js, PostgreSQL, C/C++, HTML, CSS, JavaScript, TypeScript.

Soft Skills: Problem Solving, Adaptability, Team Work

PROJECTS

Career Match

Career Match is an AI-powered platform designed to help job seekers optimize their resumes and discover suitable job opportunities based on their skills and experience. The platform analyzes resumes, provides smart job recommendations, and simplifies the hiring process through intelligent matching and automation. It also enables seamless frontend-backend communication using Axios for efficient API integration and data handling.

Technologies Used: Next.js, Spring Boot, PostgreSQL, Java, Axios, CSS, REST APIs

Alumni Connect

Alumni Connect is a platform designed to bridge the gap between students and alumni of an institution. Its purpose is to create a strong professional and social network that benefits both current students and past graduates using ReactJS, NodeJS, Firebase, and MongoDB.

Technologies Used: React, Node.js, MongoDB, CSS

Puzzle Game

A web-based puzzle game that splits one image into 9 pieces using JavaScript and the Sortable.js library for drag-and-drop. Users rearrange pieces to form the original image, with each attempt counted for added challenge.

Technologies Used: HTML, CSS, JavaScript, JQuery

CERTIFICATIONS

- BrowserStack Test Automation with Nightwatch.js
- Cisco Networking Academy- Cyber Security Essentials
